Custom lanyards help build brand awareness or promote your organization's message.
Lanyards are used to carry IDs, keys, pens, eye glasses, flash drives, cell phones, cameras, etc. Custom lanyards also make great promotional giveaways or souvenirs for your event.

Design a Custom Lanyard in Four Easy Steps:

1. Select your Material

Standard Material Types

Flat Braid
Most economical choice.

OptiWeave™
Tubular Flexible Polyester. Great for silk screen imprinting.

MicroWeave™ *Most Popular!*
Ribbed Polyester Material. Great print quality and economical.

UltraWeave™
Smooth, satin-like polyester material. Superior base for imprinting.

Woven-In
A polyester material in which the design is woven into the fabric

Specialty Material Types

Bamboo
Comprised of rayon fibers that are made from Bamboo. Very soft to the touch.

Organic Cotton
Made with 100% organic cotton which is grown without the use of harmful chemicals or pesticides.

Anti-Microbial
Polyester material which contains Nanoparticles that coat the material fibers to prevent the growth of germs.

Recycled P.E.T.
Made from 100% recycled polyester. (80% Pre-Consumer & 20% Post-Consumer waste)

This is just a sampling of our custom lanyard offering.
Turn the page for many more options and end fittings!

Custom Lanyards ship in 10 days.
(after proof approval)
Need it faster? Call for details.

2. Select your Imprint Method

Standard Imprinting Methods

Silk Screen
The most economical imprinting method. You can silk screen on almost every material with the exception of Woven-In. Allows up to a 3 color imprint.

Dye Sublimation (a.k.a. Dye-Sub) Color is dyed into the fabric. Ideal for intricate designs. Endless color options and shows gradient detail. For best results, chose UltraWeave™ fabric.

Woven-In
Design is woven into the fabric. The tight weave allows for a crisp and clean imprint. You can choose up to 12 thread colors.

3. Select your Width

Width Options

3/8"	5/8"	3/4"	1"

There are four different width options depending on which material you choose. The most popular width is 5/8".

Other Materials & Available Widths:
Bamboo: 3/8" & 5/8"
Woven In: 5/8", 3/4" & 1"
Flat Braid: 3/8"
OptiWeave™: 5/8"

All other material types come in all four widths.

4. Select your Attachment

Attachment Options
An attachment is the component on the end of the lanyard that holds ID cards, keys, cell phones, etc…Here are some examples of standard lanyard attachments.

Safety Breakaway
A safety breakaway disconnects when pulled to prevent choking. Most schools and hospitals require breakaways.

Specialty Attachments
such as the DTACH, are also available. Add a DTACH for more versatility.

See Pages 5-12 for more details and options for Custom Lanyards!

Custom Lanyards are a great way to promote your business, organization or cause!

NEW! Perfect for Events!

High-Quality Printing Displays Superb Detail and Color!

DYE-SUBLIMATED LANYARDS

Dye-Sublimated lanyards are printed using pantone color match. This process ensures that the artwork provided will match the printed lanyard, meet branding guidelines for many logos and keep color consistency with repeat orders. Please provide PMS colors for artwork when placing an order. A full-color, digital proof will be provided.

SAVE MONEY with HID®-compatible proximity cards

BPROX26H

BradyPROX™ CARDS

BradyPROX™ cards look and work like an HID® proximity card – but cost less! They are a smart, affordable card option that can be personalized with any standard PVC printer.

- Equal or better quality as HID® proximity cards
- Faster delivery: usually programmed and shipped within 48 hours!**
- Lifetime manufacturer warranty
- Printable card material (regular or composite) for PVC personalization
- Most industry standard formatting options available for easy integration with door access control systems
- Add your company name, website or phone number to every BradyPROX card, free of charge!

** A BradyPROX card has a limited lifetime warranty due to any manufacturer defect for the lifetime of the card.*

*** 48 hour lead time is for 100-1,000 cards. Lead times vary as volume increases.*

Industry Standard Smart Cards

UBand™ Contactless Silicone Wristband

NEW! UBand™

UBand™ is a new contactless technology solution that is ideal for colleges and universities, combining multi-faceted MIFARE™ technology with the convenience and flexibility of a silicone wristband.

- **Wearability -** Unlike cards, which need to be carried in a pocket or on an attachment, UBand remains attached to the user naturally, increasing the likelihood of use while decreasing the likelihood of loss or theft.
- **Durability -** UBand is waterproof, sweatproof and can stand up to the rigors and wear and tear of campus life.
- **Flexibility -** UBand's flexibility is two-fold: material and usage. UBand's silicone rubber construction allows the band to stretch around the hand for easy, comfortable removal. MIFARE technology allows UBand to be customized to whatever uses a campus needs, including access, payments and more. Include the features you need and leave out those you don't.
- **Customizability -** 20 color options make it easy to find one to suit any college or university, while three different wrist sizes (6", 7", 8") mean there is a fit for everyone. With custom printing available in emboss, deboss, or silk screen, it's simple to make the UBand unique.

VISITOR MANAGEMENT: BEST PRACTICES FOR SAFETY, SECURITY AND SUCCESS

In today's unsure times, your organization faces a myriad of potential threats: crime, vandalism, industrial espionage, global terrorism, and workplace violence, among others. The security of your employees and property are at risk every day – and it all begins at your front door.

Now more than ever, it's vitally important to have an effective Visitor Management system that will keep the wrong people out – and create a smooth, professional experience for your welcomed visitors.

Valid

Expired

Why is a Visitor Management System Important?

1 You know who is in your facility - at a moment's notice.

- Access to accurate, real-time records of non-staff personnel
- Seamless visitor documentation and an easy-to-access audit trail

2 You're prepared for visitors who may not be your friends.

- Improves the overall security of your personnel and property
- Ensures unauthorized visitors are not left unsupervised with your assets (VISITOR – Escort Required)
- Creates a permanent record of meetings, dates and attendees for intellectual property disputes

3 You can safeguard all on-site personnel and visitors (and your regulatory compliance, too).

- In case of emergency, all staff and visitors can be marshaled to a safe area
- Ensures compliance with internal policies, occupational health and safety regulations, and government regulations (specific industries)

4 You can make a powerful first impression with your visitors.

- Enhances your corporate image with a professional-looking system and badges
- Creates an efficient sign-in process (and eliminates long lines in your lobby!)
- Improves productivity and eliminates human errors

VISITOR MANAGEMENT SOLUTIONS

Your trusted provider for Visitor Management software, supplies and badges

Your organization has its own unique Visitor Management needs, and we're here to help you find the exact solution that's right for you.

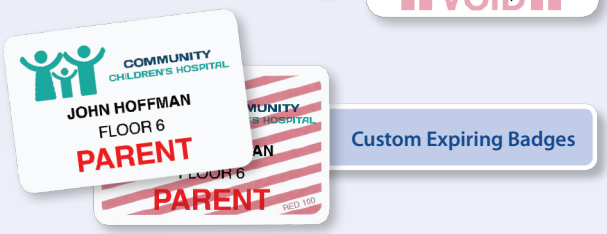

We offer a wide range of Visitor Management products that can help you keep your facilities secure, safe, and professional from the moment your visitors walk in the door.

Call us today and let us help you find a Visitor Management solution that meets your budget and the needs of your facilities!

VISITOR BADGE LOG BOOKS

Easy, cost-effective solution for recording and badging your visitors

The TEMPbadge® Visitor Badge Log Book is Visitor Management, simplified! This innovative sign-in system allows you to keep a record of your visitors and issue them a self-expiring visitor badge – all in one easy step!

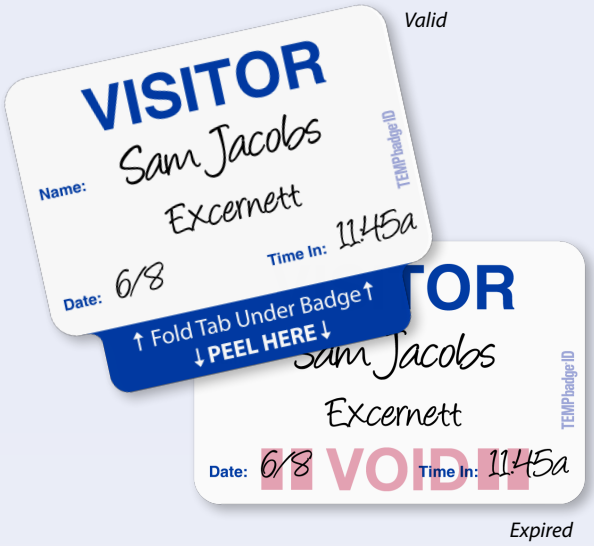

Confidential Visitor Documentation.
When a badge is filled out, a duplicate copy is recorded (which cannot be seen by future visitors).

Self-Expiring Visitor Badges.
For added security, the badge will display a red-colored "VOID" after the visitor has been on site for the allotted time.

Easy-to-Use, Low-Cost Solution.
This simple sign-in system can serve as a complete Visitor Management solution without any extra equipment or software!

Use our in-stock version (shown below) or create your own custom version with your logo, name, etc.

Lead Time
1-2 weeks for in-stock badge reels
Indicates the estimated lead time following receipt of approval of artwork proof. Lead time varies depending upon the number of colors and artwork.

Set-Up Charges - a set-up charge may apply to orders. Call for details.

Rush Charges - Additional charges may apply. Call for details.

Cancellation
Orders may be subject to a cancellation charge to compensate for any costs incurred prior to cancellation (i.e. artwork charges, printing plates, etc.).

Artwork
Modifications to artwork will be quoted on a per order basis.
A minimum charge applies. (No photocopies or faxes.)
The following computer files are acceptable:
Adobe Illustrator version 6.0 or less - all fonts converted to "OUTLINES" and saved as an .ai or .eps file.
Adobe Photoshop version 6.0 or less - files saved as .tiff, .bmp, .jpg, .psd or .gif - minimum DPI 150 - logos from websites are NOT acceptable.
Adobe InDesign version 6.0 or less - all fonts converted to OUTLINES and package the links when sending the file. Please specify the name and type of the files being sent.
Please DO NOT embed files in a Microsoft Word® file. Also include a color copy for color breakdown only. Pre-production custom-imprinted samples are available for an additional charge.

Logos, Trademarks or Designs shown do not imply any endorsement by their owner but are simply to exhibit factory printing capabilities.
